Your site does not appear to be blacklisted. If you still see security warnings on your site, [sign up](#) for a more complete scan, manual audit, and guaranteed blacklist removal.

## Hardening Improvements

### Security Headers

Missing [Content-Security-Policy directive](#). We recommend to add the following CSP directives (you can use default-src if all values are the same): script-src, object-src, base-uri, frame-src  
The 'unsafe-inline' keyword in [Content-Security-Policy](#) is not recommended. Consider using [unsafe-hashe](#)s or [nonces](#) instead. Affected
